

## The Waldorf Center for Plastic Surgery

Whether your interest is in surgical rejuvenation, laser resurfacing, BOTOX® Cosmetic, dermal fillers, or medical skin care products, The Waldorf Center staff go the extra mile to address your concerns and provide comfort during your journey to look as good as you feel.

The Waldorf Center team is led by board certified plastic surgeon Kathleen A. Waldorf, MD, FACS. Dr. Waldorf is in her 15<sup>th</sup> year of providing exceptional care to patients in Portland and is a member of the American Society of Plastic Surgery (ASPS) and the American Society of Aesthetic Plastic Surgery (ASAPS). These prestigious organizations alone provide assurance that you are in a first-class medical practice. In August of 2008, Shannon P. O'Brien, MD, joined the practice after completing her training at the University of Cincinnati.

At the Waldorf Center, patients experience not only exceptional medical care, but also a compassionate and friendly environment. The spa is staffed by highly trained aestheticians who work closely with the clinicians to optimize the specific therapeutic benefits to the patient. The onsite West Hills Surgery Center is fully accredited through the AAAASF. Having the onsite surgery center and medical day spa allows The Waldorf Center to offer patient's luxury and privacy every visit.

Plastic and reconstructive surgery is an important and often life changing decision. This unique, upscale facility blends a state of the art, all inclusive plastic surgery center with Portland's premier medical day spa—where patients not only love the results of their treatment, but also enjoy the process.
